General Contractor

Location:
St. Charles Co., Missouri

Contract Value:
Undisclosed

Kolb Grading, LLC was awarded this contract to rehabilitate wetlands. Flood induced sedimentation was reduced by 90 % to improve water management and plant food availability. This improved conditions for fish and waterfowl. Kolb Grading followed strict guidelines for safety and environmental protection. Kolb Grading received a Certificate of Merit in appreciation of valued contribution to the advancement of safety from the US Army Corps of Engineers.
