

Client:  
Ameren UE

KG's Role:  
General Contractor

Location:  
St. Louis County, Missouri

Contract Value:  
\$2.5 Million

Ameren UE has selected Kolb Grading, LLC to complete numerous tasks at the Meramec Power Plant. Kolb used mine waste to create cells, then capped them with clay liner.

- Build rail loop through ash ponds
- Stabilize subgrade up to 20 feet in depth
- Remove existing ash
- Process ash for compaction
- Place 250,000 cy of processed ash for embankment
- Place clay cap on outside of embankment
- Placing 75,000 tons of rip rap for footprint
- Place sub ballast on final grade
